

## BENETEAU MASTER CLASS 2014

It's on again! Following the success of Beneteau Master Class in 2013, a new training program has been scheduled. Master Class training sessions are specifically aimed at improving crew work, sail trim and providing a healthy environment for all types of sailors to learn. After one of the tightest years of racing in both First 31.7 and 36.7 classes, Master Class has shown what a solid training program with structured drills can do for all teams.
